Subject index

A

Abbreviations and definitions, standard, for use in dental laboratory work authorizations (Dutton), 94
Abutment tooth movement, clasp assembly modifications and their effect on (Cecconi, Asgar, and Dootz), 160
Academy of Denture Prosthetics, President's Address to (Roberts), 226
Acrylic resin display casts (Reitz), 670
  fixed partial denture, temporary, modified shell type of (Ziebert), 667
  veneer facings, technique for fabricating, in fixed restorations (Stern and Myerson), 451
Address, President's, to Academy of Denture Prosthetics (Roberts), 226
Aging process, changes in denture supporting tissues associated with (Pickett, Appleby, and Osborn), 257
  psychology of (Schabel), 569
Alveolar ridges, residual, continuing reduction of, in complete denture wearers: mixed-longitudinal study covering 25 years (Tallgren), 120
Amalgam polishing, dental, with discs as observed by scanning electron microscopy (Swedlow et al.), 536
Analysis, mechanical, of posterior teeth in centric closure (Dickson), 358
  occlusal, and treatment planning for restorative dentistry (Braly), 168
  two-dimensional, factors affecting design of photoelastic models for (Tanner), 48
Anterior teeth, clinical investigation of composite resin restorations in (Liatukas), 616
  maxillary, silicate cement restorations related to periapical lesions of (Menegale), 39
  problems of functional conflicts between (Murrell), 591
Appliances, fixed molar uprighting, mechanism of (Khouw and Norton), 381
Assembly modifications, clasp, and their effect on abutment tooth movement (Cecconi, Asgar, and Dootz), 160
Attachments, precision, simple paralleling template for (Brodbelt), 285
Autonomy of fixed prosthodontics department in 1972 (King), 533

B

Bacteria in dental caries, preliminary report on effect of fissure sealant on (Handelman, Buonocore, and Heseck), 390
Basal seat of dentures, cushioning properties of soft tissues forming (Józéfowicz), 471
Bases, resin denture, stability of, effect of ultrasonic cleaning upon (Morris and Elliott), 16
Behavior of silicate cements, three-year clinical, correlation of laboratory testing to (Mitchem), 172
Bone-marrow graft and subperiosteal implant, combined use of, in deficient edentulous mandibles: preliminary report (Kratochvil and Boyne), 645
Book review(s), 237, 341, 462, 575, 674
Border movements of human mandible (McMillen), 524

January, pp. 1-106; February, pp. 107-242; March, pp. 243-354; April, pp. 355-466; May, pp. 467-582; June, pp. 583-698.

C

Cancer of oral cavity, treatment of, radiation modalities in (Phillips and Benak), 413
hard and soft tissue necroses following radiation therapy for (Beumer, Silverman, and Benak), 640
Caries, dental, preliminary report on effect of fissure sealant on bacteria in (Handelman, Buonocore, and Heseck), 390
Cast(s), acrylic resin display (Reitz), 670
construction, master: combination technique utilizing plaster of paris and silicone material (Josephson), 565
Cement(s) restorations, silicate, related to periapical lesions of maxillary anterior teeth (Menegale), 39
silicate, and composite resins—scanning electron microscope study (McLundie and Murray), 544
three-year clinical behavior of, correlation of laboratory testing to (Mitchem), 172
Centric closure, mechanical analysis of posterior teeth in (Dickson), 358
Clasp assembly modifications and their effect on abutment tooth movement (Cecconi, Asgar, and Dootz), 160
Cleaning, ultrasonic, effect of, upon stability of resin denture bases (Morris and Elliott), 16
Cleft palate patients, obturator-wearing, clinical assessment of (Wong and Weiss), 632
voice quality of, effect of nasal extension sections on (Aramany and Drane), 194
Clinic, temporomandibular joint, role of, in dental school curriculum (Rothwell), 393
Clinical assessment of obturator-wearing cleft palate patients (Wong and Weiss), 632
behavior of silicate cements, three-year, correlation of laboratory testing to (Mitchem), 172
Closure, centric, mechanical analysis of posterior teeth in (Dickson), 358
Color, light, and shade matching (Saleski), 263
Complete denture(s), completed prosthodontic treatment for, guidelines for evaluation of (Federation of Prosthodontic Organizations), 324
immediate, effect of, on tooth eruption and jaw development (Ismail), 485
maxillary, applied plaster impressions for (Vig and Smith), 586
changes caused by mandibular removable partial denture opposing (Kelly), 140
removable partial dentures, and fixed partial denture services, minimum acceptable laboratory procedures for satisfactory (Buckley et al.), 79
service, minimum acceptable laboratory procedures satisfactory for (Buckley and Bruno), 81
treatment, study of phonetic changes in edentulous patients following (Agnello and Wictorin), 133
wearers, continuing reduction of residual alveolar ridges in: mixed-longitudinal study covering 25 years (Tallgren), 120
removable prosthodontics, occlusion as related to (Beck), 246
Completed prosthodontic treatment for complete dentures, guidelines for evaluation of (Federation of Prosthodontic Organizations), 324
for removable partial dentures, guidelines for evaluation of (Federation of Prosthodontic Organizations), 326
Composite resin(s) restorations in anterior teeth, clinical investigation of (Liatukas), 616
pulpal reaction to (Brännström and Nyborg), 181
and silicate cements—scanning electron microscope study (McLundie and Murray), 544

Composite resin(s)—Cont'd
two, tissue reactions to (Chan, Soni, and Khowassah), 176
Condyle, working, ultrasonic measurements of movements of (Preiskel), 607
Conflicts, functional, between anterior teeth, problems of (Murrell), 591
Consonant sounds, selected, study of linguopalatal contacts during production of—dynamic palatography (Harley), 364
Construction, master cast: combination technique utilizing plaster of paris and silicone material (Josephson), 565
Contacts, linguopalatal, study of, during production of selected consonant sounds—dynamic palatography (Harley), 364
Contamination, laboratory, reducing (Fisher, Chandler, and Brudvik), 221
Coping relationships, technique for transfer of (Ehrlich, Giallorenzi, and Trachtenberg), 662
Core and post, tapered dowel pin as (Scully), 289
Courses, postgraduate and refresher, 96, 344, 577
Curriculum, dental school, role of temporomandibular joint clinic in (Rothwell), 393
Cushioning properties of soft tissues forming basal seat of dentures (Józefowicz), 471

D

Definitions and abbreviations, standard, for use in dental laboratory work authorizations (Dutton), 94
Deformity, skeletal open-bite, management of, in edentulous patients (Hammer), 552
Dental amalgam polishing with discs as observed by scanning electron microscopy (Swedlow et al.), 536
caries, preliminary report on effect of fissure sealant on bacteria in (Handelman, Buonocore, and Heseck), 390
Dental—Cont'd
education, trends in, in expanded health care services in prosthodontics (Hickey and Boucher), 441
laboratory work authorizations, standard abbreviations and definitions for use in (Dutton), 94
school curriculum, role of temporomandibular joint clinic in (Rothwell), 393
Dentist's responsibilities: irradiated dentitions (Strauss and Spatz), 209
Dentitions, irradiated: dentist's responsibilities (Strauss and Spatz), 209
Dentulous hemimaxillectomy patients, transitional prosthesis for (Stark), 73
patients, radiation displacement prostheses for (Aramany and Drane), 212
Denture(s), basal seat of, cushioning properties of soft tissues forming (Józéfowicz), 471
bases, resin, stability of, effect of ultrasonic cleaning upon (Morris and Elliott), 16
complete, completed prosthodontic treatment for, guidelines for evaluation of (Federation of Prosthodontic Organizations), 324
and removable partial, and fixed partial denture services, minimum acceptable laboratory procedures for satisfactory (Buckley et al.), 79
immediate complete, effect of, on tooth eruption and jaw development (Ismail), 485
placement of, minimizing problems in (Demer), 275
mandibular removable partial, opposing maxillary complete denture, changes caused by (Kelly), 140
maxillary complete, applied plaster impressions for (Vig and Smith), 586
changes caused by mandibular removable partial denture opposing (Kelly), 140

Denture(s)—Cont'd
removable partial, achieving planned parallel guiding planes for (Jochen), 654
completed prosthodontic treatment for, guidelines for evaluation of (Federation of Prosthodontic Organizations), 326
designed by dentists before and after graduate level instruction: comparative study (Trainor, Elliott, and Bartlett), 509
retentive device for (Gindea), 501
satisfactory fixed partial, minimum acceptable laboratory procedures for (Coelho), 88
service(s), complete, minimum acceptable laboratory procedures satisfactory for (Buckley and Bruno), 81
fixed partial, complete dentures, and removable partial dentures, minimum acceptable laboratory procedures for satisfactory (Buckley et al.), 79
satisfactory removable partial, minimum acceptable procedures for (Blatterfein, Pearce, and Jackson), 84
supporting tissues, changes in, associated with aging process (Pickett, Appleby, and Osborn), 257
temporary acrylic resin fixed partial, modified shell type of (Ziebert), 667
treatment, complete, study of phonetic changes in edentulous patients following (Agnello and Wictorin), 133
wearers, complete, continuing reduction of residual alveolar ridges in: mixed-longitudinal study covering 25 years (Tallgren), 120
Design of photoelastic models for two-dimensional analysis, factors affecting (Tanner), 48
pontic, and embrasure, relationship of oral hygiene to—preliminary study (Hirshberg), 26
Device, retentive, for removable dentures (Gindea), 501
Directory, 104, 240, 352, 464, 580, 676
Display casts, acrylic resin (Reitz), 670
Dowel core technique for multirooted teeth (Lovdahl and Dumont), 44
pin, tapered, as post and core (Scully), 289
Dynamic palatography—study of linguopalatal contacts during production of selected consonant sounds (Harley), 364

E

Edentulous mandibles, deficient, combined use of subperiosteal implant and bone-marrow graft in: preliminary report (Kratochvil and Boyne), 645
mentalis muscle in relation to (Shannon), 477
patients, management of skeletal openbite deformity in (Hammer), 552
radiation protection prostheses for (Aramany and Drane), 292
study of phonetic changes in, following complete denture treatment (Agnello and Wictorin), 133
Education, dental, trends in, in expanded health care services in prosthodontics (Hickey and Boucher), 441
Electron microscope study, scanning—silicate cements and composite resins (McLundie and Murray), 544
microscopic examination, scanning, of surfaces and margins of restorations (Conway and Baumhammers), 622
microscopy, scanning, dental amalgam polishing with discs as observed by (Swedlow et al.), 536
Electronic measurement, determination of physiologic rest position by (Provost and Towle), 377
Embrasure and pontic design, relationship of oral hygiene to—preliminary study (Hirshberg), 26
Emotional patients, identification and management of (Swoope), 434
Examination, scanning electron microscopic, of surfaces and margins of restorations (Conway and Baumhammers), 622

Extension, mucobuccal fold, for implant and other surgical procedures (Weber), 423
sections, nasal, effect of, on voice quality of acquired cleft palate patients (Aramany and Drane), 194

F

Fabricating acrylic veneer facings, technique for, in fixed restorations (Stern and Myerson), 451
Facings, acrylic veneer, technique for fabricating, in fixed restorations (Stern and Myerson), 451
Fissure sealant, preliminary report on effect of, on bacteria in dental caries (Handelman, Buonocore, and Heseck), 390
Fistulas, oroantral, gold plate closure of (Shapiro and Moss), 203
Fixed molar uprighting appliances, mechanism of (Khouw and Norton), 381
partial denture(s), satisfactory, minimum acceptable laboratory procedures for (Coelho), 88
services, complete dentures, and removable partial dentures, minimum acceptable laboratory procedures for satisfactory (Buckley et al.), 79
temporary acrylic resin, modified shell type of (Ziebert), 667
prosthodontics department in 1972, autonomy of (King), 533
restorations, technique for fabricating acrylic veneer facings in (Stern and Myerson), 451
Foil, gold, practical look at (Fayle), 190
Friction, coefficient of, of prosthetic tooth materials (Koran, Craig, and Tillitson), 269
Functional conflicts between anterior teeth, problems of (Murrell), 591

G

Gold foil, practical look at (Fayle), 190
occlusal technique, simplified, for removable restorations (Woodward and Gattozzi), 447
plate closure of oroantral fistulas (Shapiro and Moss), 203
Graduate level instruction, removable partial dentures designed by dentists before and after: comparative study (Trainor, Elliott, and Bartlett), 509
Graft, bone-marrow, and subperiosteal implant, combined use of, in deficient edentulous mandibles: preliminary report (Kratochvil and Boyne), 645
Guidelines for evaluation of completed prosthodontic treatment for complete dentures (Federation of Prosthodontic Organizations), 324
removable partial dentures (Federation of Prosthodontic Organizations), 326
Guiding planes, planned parallel, for removable partial dentures, achieving (Jochen), 654

H

Health care services, expanded, in prosthodontics, trends in dental education in (Hickey and Boucher), 441
Hemimaxillectomy patients, dentulous, transitional prosthesis for (Stark), 73
Human mandible, border movements of (McMillen), 524
Hygiene, oral, relationship of, to embrasure and pontic design—preliminary study (Hirshberg), 26

I

Identification and management of emotional patients (Swoope), 434
Immediate complete dentures, effect of, on tooth eruption and jaw development (Ismail), 485
dentures, placement of, minimizing problems in (Demer), 275
Implant(s) and other surgical procedures, mucobuccal fold extension for (Weber), 423
root, effect of, on resorption of residual ridges (Lam), 311
subperiosteal, and bone-marrow graft, combined use of, in deficient edentulous mandibles: preliminary report (Kratochvil and Boyne), 645

Impressions, applied plaster, for maxillary complete dentures (Vig and Smith), 586
functional, physical properties of tissue-conditioning materials as used in (Starcke), 111
made in perforated and nonperforated rimlock trays, comparison of (Heartwell et al.), 494
materials, sterilization of, for use in surgical operating room (Firtell, Moore, and Pelleu), 419
Instruction, graduate level, removable partial dentures designed by dentists before and after: comparative study (Trainor, Elliott, and Bartlett), 509
Investigation, clinical, of composite resin restorations in anterior teeth (Liatukas), 616
Irradiated dentitions: dentist's responsibilities (Strauss and Spatz), 209

J

Jackets, porcelain, of porcelain-fused-to-gold restorations, models for, technique for reproducing soft tissues in (Lynn), 76
Jaw development and tooth eruption, effect of immediate complete dentures on (Ismail), 485

L

Laboratory contamination, reducing (Fisher, Chandler, and Brudvik), 221
procedures, minimum acceptable, for maxillofacial prostheses (Adisman and Laney) 91
satisfactory complete denture(s), removable partial dentures, and fixed partial denture services (Buckley et al.), 79
service (Buckley and Bruno), 81
fixed partial dentures (Coelho), 88
testing, correlation of, to three-year clinical behavior of silicate cements (Mitchem), 172
work authorizations, dental, standard abbreviations and definitions for use in (Dutton), 94
Learning, writing as means for (Boucher), 229
Legal hazards of maxillofacial prosthetics (Kloeffler), 306
Lesions, periapical, of maxillary anterior teeth, silicate cement restorations related to (Menegale), 39
Light, color, and shade matching (Saleski), 263
Linguopalatal contacts, study of, during production of selected consonant sounds—dynamic palatography (Harley), 364

M

Management and identification of emotional patients (Swoope), 434
Mandible(s), deficient edentulous, combined use of subperiosteal implant and bone-marrow graft in: preliminary report (Kratochvil and Boyne), 645
edentulous, mentalis muscle in relation to (Shannon), 477
human, border movements of (McMillen), 524
Mandibular removable partial denture opposing maxillary complete denture, changes caused by (Kelly), 140
sulci, movement of, during normal tongue and mouth movements (Williger), 4
Margins and surfaces of restorations, scanning electron microscopic examination of (Conway and Baumhammers), 622
Master cast construction: combination technique utilizing plaster of paris and silicone material (Josephson), 565
Material(s), impression, sterilization of, for use in surgical operating room (Firtell, Moore, and Pelleu), 419
improved maxillofacial prosthetic, evaluation of (Sweeney et al.), 297
prosthetic tooth, coefficient of friction of (Koran, Craig, and Tillitson), 269
silicone, and plaster of paris, combination technique utilizing: master cast construction (Josephson), 565

Material(s)—Cont'd
tissue-conditioning, physical properties of, as used in functional impressions (Starcke et al.), 111
Maxillary anterior teeth, silicate cement restorations related to periapical lesions of (Menegale), 39
complete denture(s), applied plaster impressions for (Vig and Smith), 586
changes caused by mandibular removable partial denture opposing (Kelly), 140
mucoperiosteum, pressure yielding of (Józefowicz), 600
Maxillofacial prostheses, minimum acceptable laboratory procedures for (Adisman and Laney), 91
prosthetic(s), legal hazards of (Kloeffler), 306
materials, improved, evaluation of (Sweeney et al.), 297
Measurement(s), electronic, determination of physiologic rest position by (Provost and Towle), 377
ultrasonic, of movements of working condyle (Preiskel), 607
Mechanical analysis of posterior teeth in centric closure (Dickson), 358
Mentalis muscle in relation to edentulous mandibles (Shannon), 477
Method, simplified, for multiple wax pattern duplication (Dunkin), 217
Microscopic examination, scanning electron, of surfaces and margins of restorations (Conway and Baumhammers), 622
Mixed-longitudinal study covering 25 years: continuing reduction of residual alveolar ridges in complete denture wearers (Tallgren), 120
Mobility, tooth, in cuspid-protected and group-function occlusions (O'Leary, Shanley, and Drake), 21
Models, photoelastic, for two-dimensional analysis, design of, factors affecting (Tanner), 48
for porcelain-fused-to-gold restorations, technique for reproducing soft tissues in (Lynn), 76
Molar uprighting appliances, fixed, mechanism of (Khouw and Norton), 381
Mouth and tongue movements, normal, movement of mandibular sulci during (Willigen), 4
Movements of working condyle, ultrasonic measurements of (Preiskel), 607
Mucobuccal fold extension for implant and other surgical procedures (Weber), 423
Mucoperiosteum, maxillary, pressure yielding of (Józefowicz), 600
Multirooted teeth, dowel core technique for (Lovdahl and Dumont), 44
Muscle, mentalis, in relation to edentulous mandibles (Shannon), 477

N

Nasal extension sections, effect of, on voice quality of acquired cleft palate patients (Aramany and Drane), 194
Necroses, hard and soft tissue, following radiation therapy for oral cancer (Beumer, Silverman, and Benak), 640
Nonperforated and perforated rimlock trays, comparison of impressions made in (Heartwell et al.), 494

O

Obturator-wearing cleft palate patients, clinical assessment of (Wong and Weiss), 632
Occlusal adjustment, occlusal stability following (Vale and Ash), 515
analysis and treatment planning for restorative dentistry (Braly), 168
stability following occlusal adjustment (Vale and Ash), 515
technique, simplified gold, for removable restorations (Woodward and Gattozzi), 447
Occlusion(s), cuspid-protected and group-function, tooth mobility in (O'Leary, Shanley, and Drake), 21

Occlusion(s)—Cont'd
as related to complete removable prosthodontics (Beck), 246
in removable partial prosthodontics (Henderson), 151
Open-bite deformity, skeletal, management of, in edentulous patients (Hammer), 552
Operating room, surgical, sterilization of impression materials for use in (Firtell, Moore, and Pelleu), 419
Oral cancer, hard and soft tissue necroses following radiation therapy for (Beumer, Silverman, and Benak), 640
cavity, cancer of, radiation modalities in treatment of (Phillips and Benak), 413
hygiene, relationship of, to embrasure and pontic design—preliminary study (Hirshberg), 26
Oroantral fistulas, gold plate closure of (Shapiro and Moss), 203

P

Palatal lift prosthesis, treating velopharyngeal inadequacies with (Kipfmueller and Lang), 63
Palate patients, cleft, obturator-wearing, clinical assessment of (Wong and Weiss), 632
Palatography, dynamic—study of linguopalatal contacts during production of selected consonant sounds (Harley), 364
Paralleling template, simple, for precision attachments (Brodbelt), 285
Partial denture(s), mandibular removable, opposing maxillary complete denture, changes caused by (Kelly), 140
removable, achieving planned parallel guiding planes for (Jochen), 654
completed prosthodontic treatment for, guidelines for evaluation of (Federation of Prosthodontic Organizations), 326
designed by dentists before and after graduate level instruction: comparative study (Trainor, Elliott, and Bartlett), 509
Partial denture(s)—Cont'd
satisfactory fixed, minimum acceptable laboratory procedures for (Coelho), 88
service(s), fixed, complete dentures, and removable partial dentures, minimum acceptable laboratory procedures for satisfactory (Buckley et al.), 79
satisfactory removable, minimum acceptable procedures for (Blatterfein, Pearce, and Jackson), 84
temporary acrylic resin fixed, modified shell type of (Ziebert), 667
prosthodontics, removable, occlusion in (Henderson), 151
Pattern duplication, multiple wax, simplified method for (Dunkin), 217
Perforated and nonperforated rimlock trays, comparison of impressions made in (Heartwell et al.), 494
Periapical lesions of maxillary anterior teeth, silicate cement restorations related to (Menegale), 39
Phonetic changes, study of, in edentulous patients following complete denture treatment (Agnello and Wictorin), 133
Photoelastic models for two-dimensional analysis, design of, factors affecting (Tanner), 48
Physical properties of tissue-conditioning materials as used in functional impressions (Starcke et al.), 111
Physiologic rest position, determination of, by electronic measurement (Provost and Towle), 377
Pin, tapered dowel, as post and core (Scully), 289
Placement of immediate dentures, minimizing problems in (Demer), 275
Planes, planned parallel guiding, for removable partial dentures, achieving (Jochen), 654
Plaster impressions, applied, for maxillary complete dentures (Vig and Smith), 586

Plaster—Cont'd
of paris and silicone material, combination technique utilizing: master cast construction (Josephson), 565
Plate closure, gold, of oroantral fistulas (Shapiro and Moss), 203
Polishing, dental amalgam, with discs as observed by scanning electron microscopy (Swedlow et al.), 536
Pontic design and embrasure, relationship of oral hygiene to—preliminary study (Hirshberg), 26
Porcelain-fused-to-gold restorations, models for porcelain jackets of, technique for reproducing soft tissues in (Lynn), 76
jackets of porcelain-fused-to-gold restorations, models for, technique for reproducing soft tissues in (Lynn), 76
Post and core, tapered dowel pin as (Scully), 289
Posterior teeth, mechanical analysis of, in centric closure (Dickson), 358
Postgraduate and refresher courses, 96, 344, 577
Precision attachments, simple paralleling template for (Brodbelt), 285
President's Address to Academy of Denture Prosthetics (Roberts), 226
Pressure yielding of maxillary mucoperiosteum (Józefowicz), 600
Procedures, implant and other surgical, mucobuccal fold extension for (Weber), 423
minimum acceptable laboratory, for maxillofacial prostheses (Adisman and Laney), 91
satisfactory complete denture(s), removable partial dentures, and fixed partial denture services (Buckley et al.), 79
service (Buckley and (Bruno), 81
fixed partial dentures (Coelho), 88
satisfactory removable partial denture service (Blatterfein, Pearce, and Jackson), 84
Properties, cushioning, of soft tissues forming basal seat of dentures (Jozéfowicz), 471
Properties—Cont'd
physical, of tissue-conditioning materials as used in functional impressions (Starcke et al.), 111
Prostheses, maxillofacial, minimum acceptable laboratory procedures for (Adisman and Laney), 91
radiation displacement, for dentulous patients (Aramany and Drane), 212
protection, for edentulous patients (Aramany and Drane), 292
Prosthesis, palatal lift, treating velopharyngeal inadequacies with (Kipfmueller and Lang), 63
transitional, for dentulous hemimaxillectomy patients (Stark), 73
Prosthetic(s) materials, improved maxillofacial, evaluation of (Sweeney et al.), 297
maxillofacial, legal hazards of (Kloeffler), 306
tooth materials, coefficient of friction of (Koran, Craig, and Tillitson), 269
Prosthodontic(s), complete removable, occlusion as related to (Beck), 246
department, fixed, autonomy of, in 1972 (King), 533
removable partial, occlusion in (Henderson), 151
services: study of need and availability in United States (Overton and Bramblett), 329
treatment, completed, for complete dentures, guidelines for evaluation of (Federation of Prosthodontic Organizations), 324
removable partial dentures, guidelines for evaluation of (Federation of Prosthodontic Organizations), 326
trends in dental education in expanded health care services in (Hickey and Boucher), 441
Prosthodontist's role in total treatment of patients (Young), 399
Psychology of aging (Schabel), 569
Pulpal reaction to composite resin restorations (Brännström and Nyborg), 181

R

Radiation displacement prostheses for dentulous patients (Aramany and Drane), 212
modalities in treatment of cancer of oral cavity (Phillips and Benak), 413
protection prostheses for edentulous patients (Aramany and Drane), 292
therapy for oral cancer, hard and soft tissue necroses following (Beumer, Silverman, and Benak), 640
Readers' round table, 235, 340, 574, 673
Refresher courses, postgraduate and, 96, 344, 577
Removable dentures, retentive device for (Gindea), 501
partial denture(s), achieving planned parallel guiding planes for (Jochen), 654
complete dentures, and fixed partial denture services, minimum acceptable laboratory procedures for satisfactory (Buckley et al.), 79
completed prosthodontic treatment for, guidelines for evaluation of (Federation of Prosthodontic Organizations), 326
designed by dentists before and after graduate level instruction: comparative study (Trainor, Elliott, and Bartlett), 509
mandibular, opposing maxillary complete denture, changes caused by (Kelly), 140
service, satisfactory, minimum acceptable procedures for (Blatterfein, Pearce, and Jackson), 84
prosthodontics, occlusion in (Henderson), 151
prosthodontics, complete, occlusion as related to (Beck), 246
restorations, simplified gold occlusal technique for (Woodward and Gattozzi), 447
Residual alveolar ridges, continuing reduction of, in complete denture wearers: mixed-longitudinal study covering 25 years (Tallgren), 120
Residual—Cont'd
ridges, resorption of, effect of root implants on (Lam), 311
Resin(s), composite, and silicate cements—scanning electron microscope study (McLundie and Murray), 544
denture bases, stability of, effect of ultrasonic cleaning upon (Morris and Elliott), 16
display casts, acrylic (Reitz), 670
fixed partial denture, temporary acrylic, modified shell type of (Ziebert), 667
restorations, composite, in anterior teeth, clinical investigation of (Liatukas), 616
pulpal reaction to (Brännström and Nyborg), 181
two composite, tissue reactions to (Chan, Soni, and Khowassah), 176
Resorption of residual ridges, effect of root implants on (Lam), 311
Rest position, physiologic, determination of, by electronic measurement (Provost and Towle), 377
Restoration(s), composite resin, in anterior teeth, clinical investigation of (Liatukas), 616
pulpal reaction to (Brännström and Nyborg), 181
fixed, technique for fabricating acrylic veneer facings in (Stern and Myerson), 451
porcelain-fused-to-gold, models for porcelain jackets of, technique for reproducing soft tissues in (Lynn), 76
removable, simplified gold occlusal technique for (Woodward and Gattozzi), 447
silicate cement, related to periapical lesions of maxillary anterior teeth (Menegale), 39
surfaces and margins of, scanning electron microscopic examination of (Conway and Baumhammers), 622
Restorative dentistry, treatment planning and occlusal analysis for (Braly), 168
Retentive device for removable dentures (Gindea), 501

Ridges, residual alveolar, continuing reduction of, in complete denture wearers: mixed-longitudinal study covering 25 years (Tallgren), 120
resorption of, effect of root implants on (Lam), 311
Rimlock trays, perforated and nonperforated, comparison of impressions made in (Heartwell et al.), 494
Root implants, effect of, on resorption of residual ridges (Lam), 311

S

Scanning electron microscope study—silicate cements and composite resins (McLundie and Murray), 544
microscopic examination of surfaces and margins of restorations (Conway and Baumhammers), 622
microscopy, dental amalgam polishing with discs as observed by (Swedlow et al.), 536
Scleroderma: prosthetic problem (Parel), 560
Sealant, fissure, preliminary report on effect of, on bacteria in dental caries (Handelman, Buonocore, and Heseck), 390
Service(s), complete denture, minimum acceptable laboratory procedures satisfactory for (Buckley and Bruno), 81
expanded health care, in prosthodontics, trends in dental education in (Hickey and Boucher), 441
fixed partial denture, complete dentures, and removable partial dentures, minimum acceptable laboratory procedures for satisfactory (Buckley et al.), 79
prosthodontic: study of need and availability in United States (Overton and Bramblett), 329
satisfactory removable partial denture, minimum acceptable procedures for (Blatterfein, Pearce, and Jackson), 84
Shade matching, color, and light (Saleski), 263
Shell type of temporary acrylic resin fixed partial denture, modified (Ziebert), 667
Silicate cement(s) and composite resins—scanning electron microscope study (McLundie and Murray), 544
restorations related to periapical lesions of maxillary anterior teeth (Menegale), 39
three-year clinical behavior of, correlation of laboratory testing to (Mitchem), 172
Silicone material and plaster of paris, combination technique utilizing: master cast construction (Josephson), 565
Skeletal open-bite deformity, management of, in edentulous patients (Hammer), 552
Soft tissues forming basal seat of dentures, cushioning properties of (Jozéfowicz), 471
technique for reproducing, in models for porcelain jackets of porcelain-fused-to-gold restorations (Lynn), 76
Sounds, selected consonant, study of linguopalatal contacts during production of—dynamic palatography (Harley), 364
Stability, occlusal, following occlusal adjustment (Vale and Ash), 515
of resin denture bases, effect of ultrasonic cleaning upon (Morris and Elliott), 16
Sterilization of impression materials for use in surgical operating room (Firtell, Moore, and Pelleu), 419
Study of linguopalatal contacts during production of selected consonant sounds—dynamic palatography (Harley), 364
mixed-longitudinal, covering 25 years: continuing reduction of residual alveolar ridges in complete denture wearers (Tallgren), 120
need and availability in United States: prosthodontic services (Overton and Bramblett), 329

Study—Cont'd
phonetic changes in edentulous patients following complete denture treatment (Agnello and Wictorin), 133
scanning electron microscope—silicate cements and composite resins (McLundie and Murray), 544
Subperiosteal implant and bone-marrow graft, combined use of, in deficient edentulous mandibles: preliminary report (Kratochvil and Boyne), 645
Sulci, mandibular, movement of, during normal tongue and mouth movements (Willigen), 4
Supporting tissues, denture, changes in, associated with aging process (Pickett, Appleby, and Osborn), 257
Surfaces and margins of restorations, scanning electron microscopic examination of (Conway and Baumhammers), 622
Surgical operating room, sterilization of impression materials for use in (Firtell, Moore, and Pelleu), 419
procedures, implant and other, mucobuccal fold extension for (Weber), 423

T

Technique, combination, utilizing plaster of paris and silicone material: master cast construction (Josephson), 565
dowel core, for multirooted teeth (Lovdahl and Dumont), 44
for fabricating acrylic veneer facings in fixed restorations (Stern and Myerson), 451
reproducing soft tissues in models for porcelain jackets of porcelain-fused-to-gold restorations (Lynn), 76
simplified gold occlusal, for removable restorations (Woodward and Gattozzi), 447
transfer of coping relationships (Ehrlich, Giallorenzi, and Trachtenberg), 662
Teeth, anterior, clinical investigation of composite resin restorations in (Liatukas), 616
problems of functional conflicts between (Murrell), 591
maxillary anterior, silicate cement restorations related to periapical lesions of (Menegale), 39
multirooted, dowel core technique for (Lovdahl and Dumont), 44
posterior, mechanical analysis of, in centric closure (Dickson), 358
Template, simple paralleling, for precision attachments (Brodbelt), 285
Temporary acrylic resin fixed partial denture, modified shell type of (Ziebert), 667
Temporomandibular joint clinic, role of, in dental school curriculum (Rothwell), 393
Testing, laboratory, correlation of, to three-year clinical behavior of silicate cements (Mitchem), 172
Therapy, radiation, for oral cancer, hard and soft tissue necroses following (Beumer, Silverman, and Benak), 640
Through eyes of editor (Boucher), 1, 107, 243, 355, 467, 583
Tissue(s)-conditioning materials, physical properties of, as used in functional impressions (Starcke et al.), 111
denture supporting, changes in, associated with aging process (Pickett, Appleby, and Osborn), 257
necroses, hard and soft, following radiation therapy for oral cancer (Beumer, Silverman, and Benak), 640
reactions to two composite resins (Chan, Soni, and Khowassah), 176
soft, forming basal seat of dentures, cushioning properties of (Jozéfowicz), 471
technique for reproducing, in models for porcelain jackets of porcelain-fused-to-gold restorations (Lynn), 76
Tongue and mouth movements, normal, movement of mandibular sulci during (Willigen), 4
Tooth eruption and jaw development, effect of immediate complete dentures on (Ismail), 485

Tooth—Cont'd
materials, prosthetic, coefficient of friction of (Koran, Craig, and Tillitson), 269
mobility in cuspid-protected and group-function occlusions (O'Leary, Shanley, and Drake), 21
movement, abutment, clasp assembly modifications and their effect on (Cecconi, Asgar, and Dootz), 160
Transitional prosthesis for dentulous hemimaxillectomy patients (Stark), 73
Trays, perforated and nonperforated rim-lock, comparison of impressions made in (Heartwell et al.), 494
Treatment of cancer of oral cavity, radiation modalities in (Phillips and Benak), 413
complete denture, study of phonetic changes in edentulous patients following (Agnello and Wictorin), 133
completed prosthodontic, for complete dentures, guidelines for evaluation of (Federation of Prosthodontic Organizations), 324
removable partial dentures, guidelines for evaluation of (Federation of Prosthodontic Organizations), 326
patients, total, prosthodontist's role in (Young), 399
Treatment—Cont'd
planning for restorative dentistry, occlusal analysis and (Braly), 168

U

Ultrasonic cleaning, effect of, upon stability of resin denture bases (Morris and Elliott), 16
measurements of movements of working condyle (Preiskel), 607
United States, study of need and availability in: prosthodontic services (Overton and Bramblett), 329
Uprighting appliances, fixed molar, mechanism of (Khouw and Norton), 381

V

Velopharyngeal inadequacies, treating, with palatal lift prosthesis (Kipfmueller and Lang), 63
Voice quality of acquired cleft palate patients, effect of nasal extension sections on (Aramany and Drane), 194

W

Wax pattern duplication, multiple, simplified method for (Dunkin), 217
Work authorizations, dental laboratory, standard abbreviations and definitions for use in (Dutton), 94
Writing as means for learning (Boucher), 229

Subject index

A

Access—the key to success (Brinker), 391
Acrylic resin splint, temporary, fabrication and duplication of (Rudick), 318
Adolescents, Class III direct-gold restoration for (Snyder and Vernetti), 276
Alginate impressions, surface characteristics of (Civjan et al.), 373
Alloys, dental, to which porcelain will be fused, troubleshooting casting technical problems for (Ingersoll), 439
  porcelain-fused-to-gold, influence of three coating agents on bond strength of (Goeller et al.), 504
  surgical casting, properties of (Civjan et al.), 77
Amalgam in contact with gold, corrosion of (Matono and Fusayama), 170
  restorations, Class II, strength of, with and without pins (Mondelli and Vieira), 179
  strength and adaptation of, influence of silver pins on (Moffa et al.), 491
American Board of Prosthodontics, current information (Laney), 657
  history of (Laney), 655
Articulator(s), condylar guidance settings on, from protrusive records (Rothstein), 334
  use of Whip-Mix face-bow with (Parel), 200
  mountings made with centric relation and myocentric position records, comparison of (Strohaver), 379
  semiadjustable, adaptation of occlusal plane analyzer to (McLaughlin), 445

B

Book reviews, 111, 231, 454, 675

C

Cancer treatment, primary, effect of, on psychosocial aspects of maxillofacial rehabilitation (Rozen et al.), 423
Casting alloys, surgical, properties of (Civjan et al.), 77
Cement, zinc polycarboxylate, biologic and physical properties of (Jendresen and Trowbridge), 264
Centric relation and myocentric position records, comparison of articulator mountings made with (Strohaver), 379
  recording techniques, comparative investigation (Kantor et al.), 593
  technique for verifying, at established vertical relation (Shannon), 585
Cingulum clasp (Miller), 369
Clasp, cingulum (Miller), 369
Cleft lip and palate patients, treatment of (Sapp et al.), 66
Clinical and histologic evaluation of conditioning material (Tassarotti), 13
Coating agents, three, comparative study of, and their influence on bond strength of porcelain-fused-to-gold alloys (Goeller et al.), 504
Committee on Scientific Investigation of American Academy of Restorative Dentistry, report of (Phillips), 82
Complete denture(s), construction of functional occlusion in (Azarmehr et al.), 337
  patients, survey of oral status of (Sheppard et al.), 121
  prosthetics, preventive (Stephens), 469
  service, denture modification during adjustment phase (Lutes et al.), 572
  surface tension in retention of (Abdullah), 141
Conditioning material, clinical and histologic evaluation (Tassarotti), 13
Condylar articulators, use of Whip-Mix face-bow with (Parel), 200
  guidance settings on articulators from protrusive records (Rothstein), 334

July, pp. 1-116; August, pp. 117-234; September, pp. 235-352; October, pp. 353-458; November, pp. 459-568; December, pp. 569-690.

Cores and posts, clinical criteria for (Perel and Muroff), 405
composite resin (Landwerlen and Berry), 500
direct pattern technique for (Stern), 279
Cusp angles of artificial mandibular first molars (Lang and Thompson), 26

D

Dental alloys to which porcelain will be fused, troubleshooting casting technical problems for (Ingersoll), 439
practice, effect of jaw malrelations on (Prowler), 189
Dentistry, permanent, myth of (Barone), 43
Denture(s), acceptance, effects of patient involvement and esthetic preference on (Hirsch et al.), 127
cast-gold mandibular, effects of, on vertical dimension of rest position (Pansch et al.), 21
comfortable silicone bulb obturator with or without (Hahn), 313
complete, construction of functional occlusion in (Azarmehr et al.), 337
maxillary immediate, technique for making impressions (Cupero), 546
modification during adjustment phase (Lutes et al.), 572
patients, survey of oral status of (Sheppard et al.), 121
preventive prosthetics (Stephens), 469
surface tension in retention of (Abdullah), 141
materials, radiopaque (Primack), 363
maxillary, complete, technique for relining (Jordan), 637
modification during adjustment phase of complete denture service (Lutes et al.), 572
overlay, physiologic basis for (Loiselle et al.), 4
palatal contours of, phonetics and swallowing to determine (Shaffer and Kutz), 360
partial, design for unilaterally remaining lower teeth, new approach to (Blatterfein), 145
immediate removable (Bruce and Kobes), 36
involving precision attachments, relining of (Scott and Bates), 325
Denture(s)—Cont'd
removable partial, rapid processing with cold-curing acrylic resin (Smith), 442
repairs of metal parts of (Brudvik et al.), 205
soreness, stress-induced muscle activity possible etiologic factor in (Yemm), 133
use of silicone in relining, rebasing, and duplication of (Shelton), 647
Dimensional change in mounting material, errors caused by (Roraff and Stansbury), 247
Directory, 114, 232, 350, 456, 566, 681

E

Emotional and occlusal components of TMJ pain and dysfunction (Solberg et al.), 412
Enamel-walls, prepared and etched (de Salazar and Guzmán V.), 512
Esthetic preference and patient involvement, effects of, on denture acceptance (Hirsch et al.), 127

F

Face-bow modeling-compound record, use of, in mounting maxillary casts, guidelines for technician (Miller et al.), 642
Whip-Mix, use of, with condylar articulators (Parel), 200

G

Gingiva, influence of composite resin restoration on (Larato), 402
Glossectomy rehabilitation by mandibular tongue prosthesis (Moore), 429
Gold, cast, mandibular dentures, effects of, on vertical dimension of rest position (Pansch et al.), 21
corrosion of amalgam in contact with (Matono and Fusayama), 170
restoration, Class III direct, for adolescents (Snyder and Vernetti), 276

H

Histologic and clinical evaluation of conditioning material (Tassarotti), 13

I

Implant fixation, unilateral subperiosteal, alternative method of, preliminary report (Parel and Thayer), 434

Impressions, alginate, surface characteristics of (Civjan et al.), 373
complete maxillary immediate denture, technique for making (Cupero), 546
mercaptan rubber, accuracy of pouring, at various intervals after separation (Podshadley et al.), 58

J

Jaw malrelations, effect of, on dental practice (Prowler), 189
Joint, temporomandibular, dysfunction, differentiation of, to simplify treatment (Farrar), 629
radiographs, technique for (Weinberg), 284

L

Lateral translatory movements of mandible, critical review of investigations (Preiskel), 46
Lip and palate, cleft, treatment of (Sapp et al.), 66

M

Mandible, lateral translatory movements of, critical review of investigations (Preiskel), 46
Mandibular dentures, cast-gold, effects of, on vertical dimension of rest position (Pansch et al.), 21
positions, continuous observations of, by telemetry (Bando et al.), 485
rest levels with and without dentures in place in edentulous and complete denture-wearing subjects (Kleinman and Sheppard), 478
position, direct procedure for indicating (Kleinman and Sheppard), 19
tongue prosthesis, glossectomy rehabilitation by (Moore), 429
Manipulative appliance (Donnelly and Beder), 309
Maxillary casts, guides for technician in mounting, using modeling-compound face-bow record (Miller et al.), 642
denture, complete, technique for relining (Jordan), 637
immediate denture impressions, complete, technique for making (Cupero), 546
Maxillary—Cont'd
prosthesis, presurgical; analysis of role in speech intelligibility (Kipfmueller and Lang), 620
Maxillectomy, partial, new technique for constructing one-piece hollow obturator after (Chalian and Barnett), 448
Maxillofacial rehabilitation, psychosocial aspects of; effect of primary cancer treatment (Rozen et al.), 423
long-range evaluation (Sykes et al.), 540
Maxillomandibular relations, effects of uneven occlusal contact when registering (Hemphill et al.), 357
Mercaptan rubber impressions, accuracy of pouring, at various intervals after separation (Podshadley et al.), 58
Metal parts of removable partial dentures, repairs of (Brudvik et al.), 205
Molars, first, artificial mandibular, cusp angles of (Lang and Thompson), 26
Mounting material, errors caused by dimensional change in (Roraff and Stansbury), 247
Mountings, articulator, made with centric relation and myocentric position records, comparison of (Strohaver), 379
Muscle activity, stress-induced, possible etiologic factor in denture soreness (Yemm), 133
Myocentric position and centric relation records, comparison of articulator mountings made with (Strohaver), 379

O

Obturator, compensating (Malson), 626
new technique for constructing one-piece hollow, after partial maxillectomy (Chalian and Barnett), 448
silicone bulb, comfortable with or without dentures (Hahn), 313
Occlusal considerations in preventive care (Rieder), 462
contact, uneven, effects of, when registering maxillomandibular relations (Hemphill et al.), 357

Occlusal—Cont'd
and emotional components of TMJ pain and dysfunction (Solberg et al.), 412
plane analyzer, adaptation of, to semiadjustable articulator (McLaughlin), 445
splint, fabrication of (Askinas), 549
Occlusion, functional, construction of, in complete dentures (Azarmehr et al.), 337
Oral perception and proprioception, review of literature and its significance to prosthodontics (Crum and Loiselle), 215
status of complete denture patients, survey of (Sheppard et al.), 121
Overlay denture, physiologic basis for (Loiselle et al.), 4

P

Palatal contours of dentures, phonetics and swallowing to determine (Shaffer and Kutz), 360
Palate and lip, cleft, treatment of (Sapp et al.), 66
Patient involvement and esthetic preference, effects of, on denture acceptance (Hirsch et al.), 127
Partial denture(s) design for unilaterally remaining lower teeth, new approach to (Blatterfein), 145
involving precision attachments, relining of (Scott and Bates), 325
removable, immediate (Bruce and Kobes), 36
rapid processing with cold-curing acrylic resin (Smith), 442
repairs of metal parts of (Brudvik et al.), 205
Permanent dentistry, myth of (Barone), 43
Phonetics and swallowing to determine palatal contours of dentures (Shaffer and Kutz), 360
Physiologic basis for overlay denture (Loiselle et al.), 4
Pins, influence of, upon some physical properties of composite resins (Lugassy et al.), 613
silver, their influence on strength and adaptation of amalgam (Moffa et al.), 491
strength of Class II amalgam restorations with and without (Mondelli and Vieira), 179
Pontic, modified sanitary (Perel), 589
Porcelain, dental alloys to which, will be fused, troubleshooting casting technical problems (Ingersoll), 439
fused-to-gold alloys, influence of three coating agents on bond strength of (Goeller et al.), 504
press technique (Dröge), 209
Posts and cores, clinical criteria for (Perel and Muroff), 405
composite resin (Landwerlen and Berry), 500
direct pattern technique for (Stern), 279
Postgraduate and refresher courses, 112, 342, 560
Preventive care, occlusal considerations in (Rieder), 462
complete denture prosthetics (Stephens), 469
Prognathic patients, artificial tooth arrangement for (LaVere and Freda), 650
Prosthesis, mandibular tongue, glossectomy rehabilitation by (Moore), 429
maxillary, presurgical; analysis of role in speech intelligibility (Kipfmueller and Lang), 620
Prosthetic devices, removable, with no posterior abutments, considerations in design of (Boero and Forbes), 253
Prosthetics, preventive, complete denture (Stephens), 469
Prosthodontics, American Board of, current information (Laney), 657
history of (Laney), 655
significance to, of oral perception and proprioception (Crum and Loiselle), 215
Psychosocial aspects of maxillofacial rehabilitation; effect of primary cancer treatment (Rozen et al.), 423
long-range evaluation (Sykes et al.), 540
Pulpal response to composite resin materials (Goto and Jordan), 601
Pulpless teeth, immediate restoration of (Baraban), 607

R

Radiographic findings, correlation of, with temporomandibular dysfunction (Weinberg), 519

Radiographs, temporomandibular joint, technique for (Weinberg), 284
Radiopaque denture materials (Primack), 363
Readers' round table, 109, 557, 674
Rehabilitation, glossectomy, by mandibular tongue prosthesis (Moore), 429
maxillofacial, psychosocial aspects of; effects of primary cancer treatment (Rozen et al.), 423
long-range evaluation (Sykes et al.), 540
Removable partial dentures, immediate (Bruce and Kobes), 36
rapid processing with cold-curing acrylic resin (Smith), 442
Resin(s), cold-curing acrylic, rapid removable partial denture processing with (Smith), 442
composite, for Class II restorations, observations on, 2 year report (Phillips et al.), 164
influence of pins upon some physical properties of (Lugassy et al.), 613
restoration(s), influence of, on gingiva (Larato), 402
sealing with cavity sealant (Liatukas and Young), 272
materials, composite, pulpal response to (Goto and Jordan), 601
post and core, composite (Landwerlen and Berry), 500
pour, current status of (Winkler), 580
Rest levels, mandibular, with and without dentures in place in edentulous and complete denture-wearing subjects (Kleinman and Sheppard), 478
position, mandibular, direct procedure for indicating (Kleinman and Sheppard), 19
vertical dimension of, effects on, of cast-gold mandibular dentures (Pansch et al.), 21
Restoration(s), Class II amalgam, strength of, with and without pins (Mondelli and Vieira), 179
observations on composite resin for, 2 year report (Phillips et al.), 164
Class III direct-gold, for adolescents (Snyder and Vernetti), 276
composite resin, influence of, on gingiva (Larato), 402
sealing with cavity sealant (Liatukas and Young), 272
Restoration(s)—Cont'd
immediate, of pulpless teeth (Baraban), 607
Retention of complete dentures, surface tension in (Abdullah), 141
Rubber, mercaptan, impressions, accuracy of pouring, at various intervals after separation (Podshadley et al.), 58

S

Scientific Investigation, Committee on, of American Academy of Restorative Dentistry, report of (Phillips), 82
Sealant, cavity, sealing composite restorations with (Liatukas and Young), 272
Silicone bulb obturator, comfortable with or without dentures (Hahn), 313
use of, in relining, rebasing, and duplication of dentures (Shelton), 647
Silver pins; their influence on strength and adaptation of amalgam (Moffa et al.), 491
Soldering, accurate, technique for (Patterson), 552
Speech intelligibility, analysis of; role of presurgical maxillary prosthesis in (Kipfmueller and Lang), 620
Splint(s), acrylic resin, temporary, fabrication and duplication of (Rudick), 318
occlusal, fabrication of (Askinas), 549
for supporting transplanted teeth (Smith), 196
Stress-induced muscle activity, possible etiologic factor in denture soreness (Yemm), 133
Success, access the key to (Brinker), 391
Surface characteristics of alginate impressions (Civjan et al.), 373
tension in retention of complete dentures (Abdullah), 141
Surgical casting alloys, properties of (Civjan et al.), 77
Swallowing and phonetics to determine palatal contours of dentures (Shaffer and Kutz), 360

T

Teeth, lower, unilaterally remaining, new approach to partial denture design for (Blatterfein), 145
pulpless, immediate restoration of (Baraban), 607

Teeth—Cont'd
transplanted, splints for supporting (Smith), 196
Telemetry, continuous observations of mandibular positions by (Bando et al.), 485
Temporomandibular dysfunction, correlation of, with radiographic findings (Weinberg), 512
joint dysfunction, differentiation of, to simplify treatment (Farrar), 629
clinical study of emotional and occlusal components (Solberg et al.), 412
radiographs, technique for (Weinberg), 284
Through eyes of editor (Boucher), 1, 117, 235, 353, 459, 569
Tooth arrangement, artificial, for prognathic patients (LaVere and Freda), 650
Tongue prosthesis, mandibular, glossectomy rehabilitation by (Moore), 429
Translatory movements of mandible, lateral, critical review of investigations (Preiskel), 46
Troubleshooting casting technical problems for dental alloys to which porcelain will be fused (Ingersoll), 439

V

Vertical dimension, clinical assessment of (Turrell), 238
of rest position, effects on, of cast-gold mandibular dentures (Pansch et al.), 21
relation, established, technique for verifying centric relation at (Shannon), 585

W
